## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Bloomberg et al (4,691,529). Bloomberg discloses an absorption refrigerator comprising: a first evaporator (24), a second evaporator (36) located downstream and cooled by said first evaporator, a freezing chamber (16), a machine room (44) whereby chamber and machine room is enclosed by surrounding walls (see figure 2), and further separated by a partition wall.

### ***Allowable Subject Matter***

Claims 2-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
